## LOST LAKE

### DOCK & SHORELINE IMPROVEMENTS

All lakeshore property owners are required to apply for approval of proposed adjacent property shoreline bank and boat dock improvements. Per Resolution 04-2017, boat docks shall be floating or fixed, shall not protrude into the lake greater than ten (10) feet vertical distance from the normal water's edge, and shall not be greater than fifteen (15) feet in length as extending along the water's edge. Placement for docks shall be in compliance with sideline structure setback requirements as per subdivision restrictions or 15 feet distant from the owner's property line.

Plans for any improvement proposal (including but not limited to docks, decks, ramps, buildings, landscaping, shoreline stabilization, and/or changes to property) adjacent to Lost Lake shall be submitted to the District in writing and shall include a detailed plot plan drawings to scale, showing locations or all proposed improvements, a typical profile elevation detail, and a complete listing of all construction materials to be used, along with details for any dock construction.

District approval shall be for a two (2) year period whereas on an annual basis all docks will be inspected by the River Conservancy Board and if found defective or not maintained properly the owner will be advised of the discrepancies. If not corrected, the dock will be

removed at the owner's expense and renewal approval will not be granted.

This approval does not relieve the owner of any other permit application requirements to any governmental agency having jurisdiction over this type of construction activity.

Applications can be found on our website at [lostlakercd.org](http://lostlakercd.org).

If you are not sure if you are in compliance, please reach out to our office at 815-652-2006.
